# *Silver Pod Coffee*

Silver Pod Coffee began trading in June 2014 and brings speciality coffees, teas & hot chocolate to all outside events. All my coffee is fairtrade and time was taken to source the very best of blends. We only use A graded 100% Arabica beans roasted in the UK, the beans are roasted in drum roasters to gradually develop their unique and optimum flavour. We use biodegradable cups where possible.

I love the buzz of meeting people from all walks of life. My aims are hard work, honesty, customer satisfaction and of course to.....
